The pieces on these pages are essential to finishing a well-designed room.

By CARISHA SWANSON

**Pattern Play**  
An accent chair is meant to stand out! That print you've been obsessing over has found its home.

**Bedford Chair**, custom, in Schumacher fabric, \$3,150. [oomphhome.com](http://oomphhome.com)

**Chaplin Chair** in Savona Vintage Green Velvet, available in three other colorways, \$1,785. [eichholtz.com](http://eichholtz.com)

## Things to Consider

**Material:** The chair's location should inform the fabric. A family room needs a high-durability print or performance fabric, while a bedroom can afford something more plush.

**The Fit:** If you can try before you buy, do it! Sitting in a chair is the only way to know if it feels good to you. In some cases, you can even pick your seat cushion, with options from feather-filled to firm. Buying ready-made? Read the return policy to avoid restocking fees.

## Musical Chairs

Thanks to its harmonious blend of style and comfort, the ideal accent chair might be the most sought-after seat in the house.
